These models are equipped with SIMPSON gas engines or electric motors, and OEM Technologies™ pumps. Producing a PSI range of ratings from 2300 to 3400, SIMPSON’s residential line will make easy work of the toughest home projects.

I live in a row house and needed something small for storage, but could help me keep the exterior of my home clean. This machine folds down, fits in narrow spaces and impressed me with its cleaning power! I highly recommend it!”

Jackie, Kansas City, MO - CM60912

“I did a lot of research before I bought the SIMPSON MSH3125-S because this was the first pressure washer that I would own. I have had the machine for 2 weeks now and have cleaned my stamped patio and my composite 12’ x 26’ porch. Well, I should say that my wife used the machine on the patio and I used it on the porch and we thought it worked great. It exceeded my expectations for power and ease of use. Truly a good buy.”  
- Joe and Linda, Blasdell, New York- MSH3125-S

Check out more of our product reviews at SIMPSONCLEANING.COM
"I did a lot of research on pressure washers and I decided to purchase this one because the price was excellent. I was not surprised how well this machine works since I had read several reviews. The first pull, the machine started and it is much quieter than most other pressure washers. Since it is a commercial product, I expect it to last for years to come. Great value, great product."

–Tim, Monroe, NC, USA - PS3228-S

As a pioneer in the pressure washer industry, SIMPSON® has led the way in providing functional innovation for cleaning professionals. With a selection of models providing PSI ratings from 3300 to 4400, our commercial line provides the power pros need. These machines are built to last with strong steel or aluminum frames, reliable SIMPSON or HONDA® engines, and commercial grade pumps.

With a series of hot water machines ranging in size, SIMPSON’s Brute series is designed to perform in a variety of industrial cleaning situations. This robust lineup of hot-water pressure washers feature commercial engines powered by SIMPSON®, HONDA®, VANGUARD® or BRIGGS & STRATTON®. Equipped with either premium AAA™, CAT PUMPS®, COMET, or UDOR® industrial-grade pumps, professionals everywhere rely on Simpson’s Brute series to get the job done right.

“The performance of this pressure washer really surprised me. Started easily, ran smoothly and the 50 feet of hose was the perfect length to allow me to reach where I needed to.”

-Tony, New York City, NY - MB1518

MOBILE TRAILER PRESSURE WASHERS

SIMPSON’s mobile pressure washing systems will handle a variety of tough commercial cleaning applications. These products are perfectly suited for contract cleaners, mobile detailers, municipalities, resorts, and many other professionals. SIMPSON trailers are NATM certified as an over-the-road pressure washer system.

“Investing in this pressure washer trailer has been one of the best investments I have made for my business! I can literally pull up to my customer sites and begin work without a water hookup necessary because of the huge water tank! Anyone with a pressure washer cleaning company should consider to add this to their fleet.”

-Adam, Louisville, KY - 95003

PREMIUM GENERATORS

SIMPSON’s portable generators are perfect for providing power at work sites, recreational facilities, residential locations, and more. Many are equipped with a foldable handle for ease of mobility and storage. Their heavy-duty roll cage frames provide durability and protection for the generator. Whether tailgating before a game, charging tools at a construction site, or providing backup power for your home, rely on SIMPSON® for your power needs.

“...I am very happy with this generator. It was easy to assemble and get running. It starts well and isn’t too loud when running. It can handle 5500 watts, which is enough for my fridge, sump pump and a few other things. It had a large gas tank so it can run overnight without needing to be refilled. I also have a lot more peace of mind knowing I have a backup plan...”

The SIG2218 inverter generator includes two sets of power leads and grounding wires for easy connection between two inverter generators rated up to 3300 running watts.

* Run time with unit at 50% load.
* Inverter generator and parallel box sold separately.
* Unit is 50 State EPA/CARB compliant.

**ACCURATE**

Data center provides real time readings on fuel/wattage levels and run time.

**QUIET**

Power is quietly delivered in comparison to standard generator noise levels.

**VERSATILE**

Pair two inverter generators through a parallel box for twice the power when you need it.
HIGH-PERFORMANCE HOSES

Made in the USA* with high-quality foreign and domestic components, our hoses handle both hot and cold water applications while providing the flexibility and durability needed to survive the toughest job sites.

**SIMPSON**’s MorFlex technology is used for high flexibility and kink resistance. It has a lightweight polyester braid for easy handling and a polyurethane outer jacket that is non-marring and abrasion resistant. MorFlex hoses are equipped with threaded M22 connections with a dual o-ring design to fit most gas and electric pressure washers with standard M22 connections.

**SIMPSON**’s Monster hose series is designed using dual braided construction of steel over polyester for high durability. The translucent polyurethane outer jacket is non-marring, abrasion resistant, and designed to fit most gas pressure washers with standard quick connect fittings. Its one wipe clean, anti-microbial feature makes it ideal to be used in most any environment.

**SIMPSON**’s Santoprene cold water hose delivers extended hose life. This polyester and steel braided, abrasion resistant hose is designed to fit most gas and electric pressure washers with standard M22 connections.

---

*This hose is awesome. It is very flexible, so you do not have to fight with stiffness or worry about any scuff marks showing on your sidewalks or patio. I highly recommend for a replacement hose or extension!*

### SIMPSON'S WRAPPED RUBBER HOSE SERIES

SIMPSON's wrapped rubber hose series features dual-braided construction of steel over polyester and is jacketed with wrapped rubber for high strength, durability and kink resistance. These hoses provide exceptional performance in high temperature applications up to 250°F and pressure ratings from 4,500 to 10,000 PSI.

### JETXTREME™ JETTER HOSE SERIES

SIMPSON’s Jetxtreme hose series is packed with performance for the toughest of jobs. This hose is constructed with a polyester braid inner tube and a polyurethane, anti-microbial outer jacket that provides added strength and durability. It’s one wipe clean feature allows for quick clean up and storage from your jobsite. Designed to handle your hot water jetting needs up to 250°F, the Jetxtreme hose series offers a wide range of PSI performances.

### CARPET HOSE SERIES

SIMPSON’s carpet cleaning solution hoses are ideal for many commercial cleaning applications. These solution hoses are built with a non-marring bonded jacket and a seamless heat resistant inner tube. Also included are 4-inch bend protectors to prevent harmful twists and breaks during cleaning. This heavy-duty hose is flexible, lightweight, and is rated up to 3000 PSI.

### CARPET HOSE SERIES - CONTINUED

SIMPSON’s carpet cleaning solution hoses are ideal for many commercial cleaning applications. These solution hoses are built with a non-marring bonded jacket and a seamless heat resistant inner tube. Also included are 4-inch bend protectors to prevent harmful twists and breaks during cleaning. This heavy-duty hose is flexible, lightweight, and is rated up to 3000 PSI.
PREMIUM ACCESSORIES

SIMPSON offers a wide variety of premium pressure washer accessories to enhance your cleaning experience. Many accessories are designed to fit most pressure washers, providing more cleaning options for the homeowner and professional to keep you cleaning effectively and efficiently.

GUNS & LANCES

- FRONT LOAD SPRAY GUN
- 360° SWIVEL SIDE ASSIST SPRAY GUN
- HOT WATER SPRAY GUN
- DIAL-N-WASH® ADJUSTABLE PRESSURE REGULATOR

NOZZLES

- SET OF 5 SPRAY NOZZLES: 0°, 15°, 25°, 40° AND SOAP
- SET OF 2 SECOND STORY NOZZLES: WASH AND SOAP
- 5-N-1 SPRAY NOZZLE: 0°, 15°, 25°, 40° AND SOAP

DID YOU KNOW?

- You should always replace any worn or broken nozzles as they can potentially be a safety hazard.
- You should always use accessories that are within your pressure washer’s PSI range. Always refer to your product user manual for additional details.

PART NUMBER | MAX PRESSURE | MAX GPM | MAX TEMP | INLET - GUN CONNECT | OUTLET - NOZZLE CONNECT

With PowerBoost® technology, high water pressure levels trigger a bypass around the venturi nozzle, where chemical suction takes place, reducing pressure loss. Pumps with PowerBoost deliver higher pressure at the nozzle for improved impact and cleaning performance.

CETA CPC-100 CERTIFIED TESTING STANDARDS

Why choose a CETA Certified product?

PROFESSIONAL MEMBER BASE:
CETA has a membership base of over 200 entities from four different countries representing manufacturers, dealers, service providers, customers/end-users and associates.

TOP INDUSTRY RATINGS:
CETA only allows for products to operate within and no less than 90% of the product rating. This accounts for normal variances within the manufacturing process.

PRECISE TESTING STANDARDS:
CETA certified products are rated based on performance recorded using the same nozzle as opposed to utilizing skewed data from different nozzle sizes.

CERTIFIED PERFORMANCE:
The CETA standard provides the end-user with a pressure washer that is certified to perform as intended with any nozzle provided as OEM equipment.
