¹ 49 State Compliant

² 50 State Compliant

* - Battery not included. Requires 12V Garden tractor battery type U1.

- Indicates engine is equipped with Low Oil Shutdown Technology. See page 45 for details.

¹ Black welded heavy gauge steel frame, powdered coated for corrosion resistance.

² Ultra lightweight aircraft grade aluminum frame.

³ Comes with GFCI plug.

- Featured on all units (Excludes electric and HONDA® GC models). See page 45 for details.

HIGH-PERFORMANCE INDUSTRIAL FEATURES

POWERED BY **CRX** POWERED by **HONDA**

- High & low pressure mountable hose reels available. (Sold separately)
- Premium CRX®, or HONDA® engines for powerful performance
- Strong steel lifting points for quick crane lifting and reinforced welded design with solid wheel axle for easy forklift transfer. On small and medium models ONLY
- External unloader with bypass hose provides durability for extended pump life.
- Four wheel, heavy gauge 1.5" steel frame design with a wheel locking brake system.

¹ MINI BRUTE includes a 15 amp high limit switch and 35' GFCI cord; not pictured.

² Battery not included on E-Start units. Requires 12V Garden tractor battery Type U1.

³ All Brute series models come standard with gun, lance, hose and nozzles.

⁴ Battery not included. Requires 12V automotive style, recommended: Group 24, 650 CCA.

- Indicates engine is equipped with Low Oil Shutdown Technology. See page 45 for details.

Advanced Carbon Monoxide
Detection & Engine Shut Down System

Safe-T-Sense assists in reducing the risk of injury or fatality due to accidental carbon monoxide poisoning. Safe-T-Sense is designed to help ensure that everyone who operates a Simpson generator equipped with Safe-T-Sense carbon monoxide detection and engine shut down system can do so with confidence, providing added peace-of-mind protection.

How Does Safe-T-Sense work?

The Safe-T-Sense system continuously measures CO levels near the generator. The Safe-T-Sense system will automatically shut down the generator before carbon monoxide levels near the generator reach a dangerous level.

Safe-T-Sense uses a very robust, fast reacting, long lasting sensor to determine CO levels. Warning lights on the face plate indicate if an instance of high CO levels shut down the generator.

SAFE-T-SENSE - Indicates engine is equipped with Safe-T-Sense.

*Generator per PGMA (Portable Generator Manufacturers' Association) standard ANSI/PGMA G300-2015, Safety and Performance of Portable Generators.

**See Operator's Manual for complete warranty details.

***ANSI/PGMA G300-2018 compliant

HIGH-PERFORMANCE HOSES

Made in the USA* with high-quality foreign and domestic components, our hoses handle both hot and cold water applications while providing the flexibility and durability needed to survive the toughest job sites.

*Excluding the Wrapped Rubber Hose Series.

MORFLEX® HOSE SERIES

SIMPSON's MorFlex® technology is designed to be highly flexible and kink resistant. Our MorFlex series hose has a polyurethane outer jacket that is non-marring and abrasion resistant for improved durability, and includes 4-inch bend protectors on each end of the hose to help extend the life of the hose. MorFlex is a cold water hose that is equipped with industry standard M22 threaded connections with a dual o-ring design to fit most gas and electric pressure washers up to 3700 PSI.

SANTOPRENE™ HOSE

SIMPSON's Santoprene™ hose is dual-braided with steel over polyester, which provides strength and durability. Our Santoprene hose is flexible and has an abrasion resistant outer jacket, and includes 4-inch bend protectors to help extend the life of the hose. This cold water hose is equipped with industry standard M22 threaded connections with a dual o-ring design to fit most gas and electric pressure washers up to 4000 PSI.

PART NUMBER	41182
MAX PRESSURE	4000 PSI
ID x LENGTH	1/4" x 25'
MAX TEMP	140° F
INNER MATERIAL	Polyester & Steel-braided
OUTER MATERIAL	Santoprene w/ 4" Bend Protectors
FITTINGS	M22 x M22

M22 ADAPTER INCLUDED
WITH MORFLEX® & SANTOPRENE™ HOSES
USED TO CONNECT MULTIPLE HOSES WITH STANDARD M22 CONNECTIONS

MONSTER HOSE SERIES

SIMPSON's Monster hose is designed for cold water temperature applications up to 140°F. The dual-braided construction of steel over polyester provides strength and durability; the translucent polyurethane outer jacket is flexible, non-marring and up to three times more abrasion resistant than rubber. This cold water hose is built to withstand up to 4500 PSI, which means this hose is fit for most commercial and residential pressure washers with 3/8" quick connect fittings.

ARMOR HOSE® SERIES

SIMPSON's Armor Hose™ is built for high-temperature applications up to 250°F. The dual-braided construction of steel over polyester provides strength and durability; the opaque polyurethane outer jacket is flexible, non-marring and abrasion resistant. Armor Hose is hot and cold water compatible and designed to fit most commercial gas pressure washers with 3/8" quick connect fittings and up to 4500 PSI.

WRAPPED RUBBER HOSE SERIES

SIMPSON's wrapped rubber hose, which is designed for industrial and commercial use; the heavy-duty construction and durability make it perfect for the toughest jobs and environments. This hose series offers single-braided or dual-braided technology with a wrapped rubber outer jacket and bend protectors to help extend the life of the hose. Our wrapped rubber hose is rated for temperatures up to 250°F and pressure ratings from 4,500 to 10,000 PSI and is compatible with pressure washers equipped with 3/8" quick connect fittings.

CARPET HOSE SERIES

SIMPSON's carpet cleaning solution hoses are ideal for many commercial cleaning applications. These solution hoses are built with a non-marring bonded jacket and a seamless heat resistant inner tube. Also included are 4-inch bend protectors to prevent harmful twists and breaks during cleaning. This heavy duty hose is flexible, lightweight, and is rated up to 3000 PSI.

VITAL OXIDE

PROFESSIONAL GRADE CLEANING

Vital Oxide is an EPA-registered hospital disinfectant cleaner, mold killer and super effective odor eliminator. Ready to use with no mixing required, just spray, wipe or fog right from the bottle. Non-irritating to the skin and non-corrosive to treated articles.

VITAL OXIDE IN ACTION:

- Used in emergency response to eliminate Norovirus outbreaks.
- Clinical trials have shown a decrease of 95% in Healthcare Associated Infections (HAI'S) of Acinetobacter spp in hospital environment.
- Used in disaster response to eliminate mold and mildew from flood damage.
- University and government sponsored studies document long-term effectiveness on mold and mold spores, even eliminating mold spores.

CLEANING DETERGENT

PROFESSIONAL GRADE CLEANING

SIMPSON® pressure washer cleaners are specifically formulated to enhance your pressure washer's performance. Featuring different formulas, multi-purpose, heavy-duty, and biodegradable, SIMPSON® cleaners will help cut through tough grease, power away stains, and easily remove mold and mildew on the job-site and at home.

FOR USE ON MULTIPLE SURFACES:

- Industrial Sites & Exterior Surfaces
- Tough stains on Brick, Siding & Concrete
- Commercial Equipment & Vehicle Fleet
- Grease & Grime
- Deck, Fence & Patio
- Brick Siding & Concrete
- Cars, Trucks, Bikes & RVs
- Outdoor Furniture

Non-toxic & biodegradable, contains no harsh chemicals

With PowerBoost® technology, high water pressure levels trigger a bypass around the venturi nozzle, where chemical suction takes place, reducing pressure loss. Pumps with PowerBoost deliver higher pressure at the nozzle for improved impact and cleaning performance.

HIGHER PRESSURE AT THE NOZZLE

GREATER IMPACT AND CLEANING PERFORMANCE

INTRODUCING THE NEW ERA OF ENGINES

CRX[®] PROFESSIONAL ENGINES

Packed with premium features and professional specifications, our CRX[®] line of single-cylinder and v-twin engines are guaranteed to out-perform the competition.

CRX[®] professional engines are designed to meet and exceed the rigorous demands of every job site. These engines feature innovative technology to enhance performance, extend the life of your product and increase productivity.

THE CRX[®] ADVANTAGE

WORLD CLASS DESIGN & INNOVATION

- Heavy duty dual-element air filter
- Manual fuel shut off valve
- Cast Iron Cylinder Sleeve
- Steel blower housing
- External Oil Cooler with oil filter increases oil capacity. Exclusively available on CRX V-Twin engines
- EPA Compliant. CARB optional on most models except CRX[®]1000

- Heavy-duty steel, powder-coated fuel tank
- Precision-machined, forged iron crankshaft with heavy-duty steel ball bearings designed for low vibration and toughness, required for the most extreme duty cycles
- Low oil auto-shutdown sensor prevents damage to the engine when oil volume is low
- Heavy duty steel recoil cover

*Weights are approximate and can vary with options
*Net power levels per SAE code J1349

OPTIMAL ENGINE PERFORMANCE IN A VARIETY OF APPLICATIONS

The CRX[®] engine line was born out of a combined 200+ years of industry leading engineering experience & innovation. Get to work faster no matter what job or environment you're in. Save time, effort, and get the job done hassle free.

SAE J1349 POWER STANDARD

The SAE J1349 standard measures net power with the manufacturer’s production muffler and air cleaner in place. Net power more closely correlates with the power the operator will experience when using a CRX® engine powered product. The power rating of the engines indicated in this document measures the net power output at 3600 rpm and net torque at 2500 rpm, as tested on a production engine. Mass production engines may vary from this value.

Actual power output for the engine installed in the final machine will vary depending on numerous factors, including the operation speed of the engine in application, environmental conditions, maintenance and other variables.

ENGINE NAME	CRX® 420	CRX® 680	CRX® 750	CRX® 1000	CRX® 1000

ENGINE NAME	CRX® 420 w/ Electric Start	CRX® 420 w/ Electric Start
RETAIL PART NUMBER	2466501	2466502
SHIPPABLE PART NUMBER	2466501S	2466502S
OEM PART NUMBER	2466501P	2466502P
STARTING SYSTEM	E-Start	E-Start and Key Start

LOW OIL SHUTDOWN

The Low Oil Shutdown (LOS) feature helps to prevent engine damage due to a low oil condition. LOS is an oil level sensor inside the engine crankcase. When the engine oil reaches a level that is too low for proper operation, the LOS will automatically stop the engine, indicating the oil needs to be refilled.

* Net power levels per SAE J1349
* Weights are approximate and can vary with options

INTERESTED IN BECOMING A SIMPSON® DEALER?

Partner with a vertically integrated manufacturer of outdoor power equipment as a SIMPSON® dealer and enjoy the following benefits:

Dedicated Account Representative to help grow your **SIMPSON** business

Access to exclusive sales promotions

Invitation to exclusive **DEALER ONLY** trade shows & events

View our full library of literature including promotional sales materials

Become your own service center and increase your business

HAVE QUESTIONS? CONTACT YOUR SALES REPRESENTATIVE AT: SALES@SIMPSONCLEANING.COM OR CALL US **1-847-348-1500**

WHY CHOOSE CETA CERTIFIED PRODUCTS?

CETA testing standards exceed requirements of PWMA and other pressure washer testing standards, making CETA the gold standard of product performance test methods of product ratings.

VARIABLE PERFORMANCE RATING

- ✓ CETA allows for products to operate within and no less than 90% of the product rating. This accounts for normal variances within the manufacturing process.

EQUIPMENT PASS/FAIL

- ✓ CETA application ensures the engine is not over-loaded which extends the life and durability of the pressure washer, while PWMA has no equivalent requirements.

CREDITABILITY

- ✓ CETA has a membership base of over 200 entities compared to PWMA with less than a dozen*. CETA is a nation wide, inclusive organization that encompasses manufacturers, dealers, distributors and contractors, making it widely recognized as the forgoing organization in the outdoor power cleaning industry.

SIMPSON Outdoor Power

FNA Group

@Simpson_OPE

FNA Group is a World-Class Manufacturer of Pressure Washers and Outdoor Power Equipment

FNA Group, headquartered in Pleasant Prairie, Wisconsin is one of the most vertically integrated manufacturers of pressure washers and other power equipment. Available products include brand names such as Simpson®, Delco®, CRX®, POWERWASHER®, AAA Pumps® as well as private label products for some of the largest power equipment marketers in the world. We manufacture electric and gas pressure washers, cold water and hot water pressure washers, pressure washer pumps, high pressure thermoplastic hoses, accessories and the replacement parts that preserve your unit.
