

PORTABLE TRASH PUMP SERIES

2" SEMI-TRASH PUMP

SSTP71007

Built for the tough jobs, the SSTP71007, a Semi-trash pump, provides maximum drawing power for various applications: Construction sites, basements, window wells, pools/standing water sites, sewers, and basins. Engineered to handle water containing mud, sand, leaves, twigs, and other contaminants, SIMPSON semi-trash water pumps are perfect for clearing floodwater and wastewater from residential, municipal, and industrial sites. Easy to transport, use, and clean, SIMPSON's semi-trash water pumps will get the job done no matter where you need them.
